

## VES-Artex Blast Fans

VES-Artex Blast Fans are simply **the dairy industry's most powerful and efficient re-circulating fans**. Designed with a balanced exhaust opening for maximum air velocity and coverage, the light fiberglass construction stands up to the harshest environments.

This multipurpose fan is perfect for industrial applications to cool and create consistent temperatures in buildings.

The VES-Artex blast fan can help minimize heat stress with velocity and circulation over the cows, improving reproduction and milk production.

### Limited Warranty

- » 1-year warranty on all parts
- » 2-year prorated warranty on motors
- » 5-year prorated aluminum blade warranty
- » 10-year fan housing

### Benefits

Target areas to concentrate air

An economical option for low roof barns
